meaning. ~~A Commentary On Hegel S~~

It is very much a commentary rather than an interpretation: there is no framing at the beginning of the text to orientate the reader, no attempt to develop and sustain a distinctive characterization of either Hegel's method or project in the work, and the emphasis is on articulating the structure of Hegel's transitions rather than on explaining their significance.

Introduction. In his 1945 work *The Open Society and its Enemies*, Karl Popper famously attacked what he saw as the intellectual roots of fascism. Tracing a lineage from Plato to its modern progenitors, he asserted that "Hegel's hysterical historicism was the fertiliser from which totalitarianism was grown." (Popper 1945: 270). Popper's chapter on "Hegel and the New Tribalism" includes a long list of charges, questioning Hegel's motives as an employee of the Prussian State, his ...

~~A Hegel Bibliography~~

Hegel is regarded as the pinnacle of German idealism and his work has undergone an enormous revival since 1975. In this book, David Gray Carlson presents a systematic interpretation of Hegel's 'The Science of Logic', a work largely overlooked, through a system of accessible diagrams, identifying and explicating each of Hegel's logical derivations.
