For example, a Toyota Camry maintenance appointment usually includes a tire rotation and resets your tires to the correct psi.

Scheduled Camry service may also include an oil change and oil filter replacement. For Camry owners who prefer synthetic oil, we recommend an oil change at 12 months or 10,000 miles, whichever comes first.

Service your car at regular intervals to maintain its optimal performance and retail value. There are certain components of every car that wear out over time. These components may be filters, which get dirty and need to be changed. They may be brakes and belts, which wear down and lose effectiveness. They may be engine oil, power steering fluid, and other fluids, which need to be refilled, changed, or flushed.
