Social stratification describes the social position of persons in society. In our society we categorize people into rankings based on factors like wealth, income, social status, occupation and power. In the U.S.stratification, in its simplest form, refers to upper class, middle class, and lower class. Although stratification is found in all developed countries, it...

Social Stratification and Capitalism - If I Had The Power

This book builds on institutionalist theory in both economics and political science to offer a general political economy framework for the study of welfare capitalism. Based on the key idea that social protection in a modern economy, both inside and outside the state, can be understood as protection of specific investments in human capital, the book offers a systematic explanation of popular ...

Capitalism, Democracy, and Welfare | Torben Iversen

Edited by Adrienne S. Chan and Donald Fischer, The Exchange University: Corporatization of Academic Culture develops several very informative case studies of academic capitalism as it affects the research culture of universities, graduate and professional education, the marginalization and tiering of fields and sectors of work within universities, and the search for alternatives.

Grappling with academic capitalism in Canadian ...

For over one hundred years university endowments in the United States had been managed according to the common law "prudent man" principle that imposed the relatively conservative fiduciary responsibility for capital preservation upon university trustees. Beginning in the 1970s the prudent man concept was re-imagined to call for the maximization of return on endowment holdings and ...

The New Prudent Man: Financial-Academic Capitalism and ...

Academic capitalism is a unique hybrid that unites the scientific search for truth and the economic maximization of profits. It turns universities into enterprises competing for capital accumulation and businesses into knowledge producers looking for new findings that can be turned into patents and profitable commodities. To understand what this new institutional setting means for science and ...
