Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vvayn, Jeff Bry, Faye Jones

"Speaking of Sadness, based on fifty in-depth interviews, provides first-hand accounts of the depression experience while discovering clear regularities in the ways that personal identities are shaped over the course of an "illness career." The new edition of the book is highlighted by a thoroughly new and extensive introduction"--

Aspiring doctors fear the MCAT with good reason- the exam is a daunting 7.5 hours long and covers much more than just the facts about basic sciences. It's an in-depth, rigorous examination of knowledge of a multitude of physical and biological scientific concepts and principles, as well as critical-thinking and writing skills. MCAT Psychology and Sociology Reviewincludes topic reviews of the biological foundations of behavior, personality, motivation, attitudes, psychological disorders, self- and group identities, social structures, learning and memory, and statistics and research methods. The book also includes access to 3 full-length practice MCAT exams. This revised 3rd edition reflects recent changes made by the test-makers to content coverage on the exam (including a new section on research methods and data interpretation, insertion of additional figures and content examples, adjusting the balance of memorization/critical reasoning questions, and revising some content presentation structures for better exam consistency).

Law and Society Today is a problem-oriented survey of sociological studies, with a unique emphasis on recent historical and political developments. Whereas other texts focus heavily on criminal procedure, this book foregrounds the significant changes of the 2000s and 2010s, including neoliberalism, migration, multiculturalism, and the large influence of law and economics in law teaching, policy debates, and judicial decision-making. Each chapter presents key concepts, real-world applications, and hypothetical problems that allow students to test comprehension. With an integrated approach to theory and practice and written in an accessible tone, this text helps students recognize the dynamic forces that shape the way the law is constructed and implemented, particularly how law drives social inequality.

The most relevant textbook for today's students.

Essentials of Sociology, adapted from George Ritzer 's Introduction to Sociology, provides the same rock-solid foundation from one of sociology's best-known thinkers in a shorter and more streamlined format. With new co-author Wendy Wiedenhoft Murphy, the Third Edition continues to illuminate traditional sociological concepts and theories and focuses on some of the most compelling features of contemporary social life: globalization, consumer culture, the internet, and the " McDonaldization " of society. New to this Edition New " Trending " boxes focus on influential books by sociologists that have become part of the public conversation about important issues. Replacing " Public Sociology " boxes, this feature demonstrates the diversity of sociology's practitioners, methods, and subject matter, featuring such authors as o Michelle Alexander (The New Jim Crow) o Elizabeth Armstrong and Laura Hamilton (Paying for the Party) o Matthew Desmond (Evicted) o Arlie Hochschild (Strangers in Their Own Land) o Eric Klinenberg (Going Solo) o C.J. Pascoe (Dude, You're a Fag) o Lori Peek and Alice Fothergill (Children of Katrina) o Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, Bitcoin, net neutrality, digital privacy, Wikileaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change further segmentation of wealthy Americans as the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism
