Graph paper is a type of paper printed with squares that form an uninterrupted grid. Theses squares can have various sizes ranging from 1 inch to 1/8 inch, the most common ones being 1/2 inch and 1/4 inch. So when you hear about 1/4 inch graph paper, now you know that it's referring to the squares in the grid being quarter inch in size.

The design of Barbican can be seen as unrepeatable not because of the technical issue or the level of skill in architecture design but because of the special of the site. Wars, fires of the site bring barbican more meaning, also there is no more possibility of having such a big site in the centre of London city.

Paper art is perhaps more than appealing than ever in today's digital world. A humble piece of paper has so many possibilities – it can be folded, laser-cut, layered and made into sculptures. Below are some of our favourite examples of paper art being used imaginatively within contemporary design, giving new life to one of the most ancient arts.
