Size and Weight. If you plan to tote your camera around with you, you will want to research the size and weight of a camera before hitting the buy button. A point and shoot camera is going to be your lightest and smallest, whereas a DSLR will be much larger and heavier. The mirrorless falls right in between the two.

~~Camera Buying Guide for Beginners— Your AAA Network~~

A DSLR is a fairly robust piece of equipment, but it is still a piece of electronics with a number of glass components, and as such, it does need to be looked after. The two accessories I suggest you buy for your DSLR are a lens hood, also known as a sun hood, and a clear UV filter. These will both protect the lens on your DSLR.

When buying a DSLR, typically you'll be presented with a choice between two different sensor sizes: APS-C (also known as a crop sensor) or a full-frame sensor. When it comes to image sensors, bigger is definitely better, as the size of the sensor determines how much light is used to create the image.

~~How To Buy The Best DSLR - Which?~~
