The result is truly a history of taste: our most elevated, elegant and pleasurable thoughts about food - ingredients, preparation, presentation - since prehistory. From beginning to end this is an enthralling and richly illustrated story of one of the most vital clues not just to what keeps us alive, but to what makes us feel alive.

Food: The History of Taste: Amazon.co.uk: Paul Freedman ...

Surveys the history of changing tastes in food and fine dining – what was available for people to eat, and how it was prepared and served – from prehistory to the present day Since earliest times food has encompassed so much more than just what we eat – whole societies can be revealed and analysed by their cuisines. In this wide-ranging book, leading historians from Europe and America piece together from a myriad sources the culinary accomplishments of diverse civilizations, past and ...

Food: The History of Taste - Google Books

In narrating the history of taste, the volume follows the traditional arc of Western civilization, in a culinary parallel to university survey textbooks. The chapters proceed from prehistory to ancient Greece and Rome, medieval Islam and Christendom, early modern Europe, industrialization, French gastronomy, the western restaurant, and finally postmodern anxiety.

Food: The History of Taste | Times Higher Education (THE)

Perhaps this explains the diversity of its culinary traditions. The history of Britain has played a large part in its traditions, its culture – and its food. The Romans for instance brought us cherries, stinging nettles (to be used as a salad vegetable), cabbages and peas, as well as improving the cultivation of crops such as corn.
