The Ford Fiesta Mk4 was built and sold at the same time as the Mk3, as production ended for the Mk3 in 1997. The Fiesta Mk4 was instantly recognisable as a new model due to its curved, aerodynamic body shape and it was Britain's best-selling car from 1996-1998. With the Mk4 came the 1.25-litre and 1.5-litre engines that are still used today.

A group of scruffy lunatics and their under powered but valiant vehicles navigate of the globe, attempting a journey conceived by people who have heard of the words ' stupid ' and ' dangerous ' but haven ' t really understood their meaning. Setting off from various points across the globe, Teams: Away From Keyboard, Don ' t Smell My Shoes, Two Fake Yanks and a Scot, Rally McRally Face, Mini Adventurers and Cunning Stunts unite to create Convoi Exceptionnel Could a Mongol Rally Convoy be better named? The convoy was largely formed in Calais UK where the aforementioned lunatics easily spotted each other via their glorious car decorations which included smelly old shoes and garden gnomes among others. Little did the people in this blossoming group know of the horrors and wonders, the friendships and hardships that lay before them as they attempted to drive through 19 countries, over 10,000 miles to Mongolia. The journey was long and perilous but they were Exceptionnel.

buy multiple books to get everything you two are putting into this book" 'I absolutely love your book. Honestly, I'm reading it again because it had so much information. It's deep and embodies so many aspects of spirituality. That's what I enjoyed the most about it. It's different because of that. Everything around spirituality, books, usually focus on only one or two areas. I think back to that time when I was desperately seeking answers and had no one around me to ask or talk to about this. If your book would have been available, wow, a game-changer. I can't tell you how many books I've read, especially when I was desperately seeking out everything and anything that talks about universal beliefs, all of it. Many things were, well, a waste of time. Then I would find a book which is a gold nugget. That's what makes your book amazing. You've covered so many things around this that even if only a few things resonate with a reader, you've given that person a trail and a path to follow. It will lead them to go and open more doors.' - Beta Reader 'Wow I can ' t put this book down such a great read.' - Amazon Review

This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.
