Forge of Darkness Quotes Showing 1-30 of 113 "When one loves all things of the world, when one has that gift of joy, it is not the armour against grief that you might think it to be. Such a person stands balanced on the edge of sadness - there is no other way for it, because to love as he does is to see clearly."

The Fiends of Nightmaria is a new novella from New York Times bestselling author Steven Erikson, set in the world of the Malazan Book of the Fallen. The king is dead, long live King Bauchelain the First, crowned by the Grand Bishop Korbal Broach. Both are, of course, ably assisted in the running of the Kingdom of Farrog by their slowly unravelling servant, Emancipor Reese. However, tensions are mounting between Farrog and the neighboring country of Nightmaria, the mysterious home of the Fiends. Their ambassador, Ophal D Neeth Flatrog, seeks an audience with King Bauchelain, who has thus far rebuffed his overtures. But the necromancer has some other things on his plate. To quell potential rebellion nearly all the artists, poets, and bards in the city have been put to death. A few survivors languish in the dungeons, bemoaning their fates. Well, just moaning in general really...and maybe plotting escape and revenge. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A thrilling, harrowing novel of war, intrigue and dark, uncontrollable magic. Toll the Hounds is the new chapter in Erikson's monumental series - epic fantasy at its most imaginative and storytelling at its most exciting. In Darujhistan, the city of blue fire, it is said that love and death shall arrive dancing. It is summer and the heat is oppressive, but for the small round man in the faded red waistcoat, discomfiture is not just because of the sun. All is not well. Dire portents plague his nights and hunt the city streets like fiends of shadow. Assassins skulk in alleyways, but the quarry has turned and the hunters become the hunted. Hidden hands pluck the strings of tyranny like a fell chorus. While the bards sing their tragic tales, somewhere in the distance can be heard the baying of Hounds...And in the distant city of Black Coral, where rules Anomander Rake, Son of Darkness, ancient crimes awaken, intent on revenge. It seems Love and Death are indeed about to arrive...hand in hand, dancing. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Esslemont's all-new prequel trilogy takes readers deeper into the politics and intrigue of the New York Times bestselling Malazan Empire. Dancer's Lament focuses on the genesis of the empire, and features Dancer, the skilled assassin, who, alongside the mage Kellanved, would found the Malazan empire.

A whimsical space-opera spoof follows the misadventures of not-terribly-bright but exceedingly cocksure Captain Hadria Sawback and his motley crew aboard the starship Willful Child as they plant the Terran flag on subjugated alien worlds.

Drawing on events touched on in the prologue of Steven Erikson's landmark fantasy Gardens of the Moon: A Malazan Book of the Fallen, Night of Knives is the first in Ian C. Esslemont's Novels of the Malaan Empire series--a momentous chapter in the unfolding story of the extraordinarily imagined world of Malaz. The small island of Malaz and its city gave the great empire its name, but now it is little more than a sleepy, backwater port. Tonight, however, things are different. Tonight the city is on edge, a hive of hurried, sometimes violent activity; its citizens bustle about, barring doors, shuttering windows, avoiding any stranger's stare. Because tonight there is to be a convergence, the once-in-a-generation appearance of a Shadow Moon--an occasion that threatens the good people of Malaz with demon hounds and other, darker things... It was also prophesied that this night would witness the return of Emperor Kellanved, and there are those prepared to do anything to prevent this happening. As factions within the greater Empire draw up battle lines over the imperial throne, the Shadow Moon summons a far more ancient and potent presence for an all-out assault upon the island. Witnessing these cataclysmic events are Kiska, a young girl who yearns to flee the constraints of the city, and Temper, a grizzled, battle-weary veteran who seeks simply to escape his past. Each is to play a part in a conflict that will not only determine the fate of Malaz City, but also of the world beyond... Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, Gardens of the Moon is epic fantasy of the highest order--an enthralling adventure by an outstanding new voice. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
