~~'Fox on the Rhine,' by Douglas Niles and Micheal Dobson, is a wonderful story of just how differently World War Two could have turned out if the Army Officers plot had succeeded in killing Adolf Hitler. In 'Fox' Hitler is killed at Rastenberg on July 20th, 1944 and Germany is soon thrown into a sea of chaos.~~

~~Fortunately that is not so with Fox on the Rhine. How this book plays out is very believable and written in such a manner that you are wanting to turn the page to see what happens next. It is a fascinating examination of how differently World War One of the issues that I have had with alternate history books is that many times they take very serious liberty with changing how events unfolded.~~

~~A great conclusion to the alternate history duology that began with the assassination of Adolf Hitler. The book actually left me wanting more and wished the authors would go a Harry Turtledove route and continue to go through history to examine how the world would be different with what happened in this and the previous novel, Fox on the Rhine.~~
