An artisan perfumer reveals a lost art and its mysterious, sensual history. For centuries, people have taken what seems to be an instinctive pleasure in rubbing scents into their skin. Perfume has helped them to pray, to heal, and to make love. And as long as there has been perfume, there have been perfumers, or rather the priests, shamans, and apothecaries who were their predecessors. Yet, in many ways, perfumery is a lost art, its creative and sensual possibilities eclipsed by the synthetic ingredients of which contemporary perfumes are composed, which have none of the subtlety and complexity of essences derived from natural substances, nor their lush histories. Essence and Alchemy resurrects the social and metaphysical legacy that is entwined with the evolution of perfumery, from the dramas of the spice trade to the quests of the alchemists to whom today's perfumers owe a philosophical as well as a practical debt. Mandy Aftel tracks scent through the boudoir and the bath and into the sanctums of worship, offering insights on the relationship of scent to sex, solitude, and the soul. Along the way, she imparts instruction in the art of perfume compositions, complete with recipes, guiding the reader in a process of transformation of materials that continues to follow the alchemical dictum solve et coagula (dissolve and combine) and is itself aesthetically and spiritually transforming.

To women the whole world over, perfume means glamour, and in the world of perfume, Jean-Claude Ellena is a superstar. In this one-of-a-kind book, the master himself takes you through the doors of his laboratory and explains the process of creating precious fragrances, revealing the key methods and recipes involved in this mysterious alchemy. Perfume is a cutthroat, secretive multibillion-dollar industry, and Ellena provides an insider's tour, guiding us from initial inspiration through the mixing of essences and synthetic elements, to the deluxe packaging and marketing in elegant boutiques worldwide, and even the increasingly complicated safety standards that are set in motion for each bottle of perfume that is manufactured. He explains how the sense of smell works, using a palette of fragrant materials, and how he personally chooses and composes a perfume. He also reveals his unique way of creating a fragrance by playing with our olfactory memories in order to make the perfume seductive and desired by men and women the world over. Perfume illuminates the world of scent and manufactured desire by a perfumer who has had clients the likes of Cartier, Van Cleef & Arpels, Bulgari, and Hermès.

When Reichl took over from the formidable and aloof Bryan Miller as the New York Times' restaurant reviewer, she promised to shake things up. And so she did. Gone were the days when only posh restaurants with European chefs were reviewed. Reichl, with a highly developed knowledge and love of Asian cuisine from her years as a West Coast food critic, began to review the small simple establishments that abound in Manhattan, Brooklyn and Queens. Many loved it, the Establishment hated it, but her influence was significant. She brought a fresh writing style to her reviews and adopted a radical way of getting them. Amassing a wardrobe of wigs and costumes, she deliberately disguised herself so that she would not receive special treatment. As a result, she had a totally different dining experience as say, Miriam the Jewish mother than she did as Ruth Reichl the reviewer, and she wasn't afraid to write about it. The resulting reviews were hilarious and sobering, full of fascinating insights and delicious gossip. Garlic and Sapphires is a wildly entertaining chronicle of Reichl's New York Times years.

Journey through the digestive systems of humans, farm and wild animals, and meet some of nature's ultimate recyclers as they eat, breed in and compete for dung. The fall of bodily waste onto the ground is the start of a race against the clock as a multitude of dung-feeders and scavengers consume this rich food source. From the enigmatic dung-rolling beetles to bat guano and giant elephant droppings, dung creates a miniature ecosystem to be explored by the aspiring dung watcher. The author completes the book with an identification guide to dung itself, so that you can identify the animal that left it behind. Pellets or pats? Scats, spraints, frass, guano, spoor - learn your way around different species' droppings. There's also a dung-feeder's identification guide that includes the species you're most likely to encounter on an exploration of the dung heap.

Delve into the world of natural aromas and discover their profound effect on emotional well-being, from relieving stress to enhancing sensuality.

As seen in Food52, Los Angeles Times, and Bloomberg Two masters of composition—a chef and a perfumer—present a revolutionary new approach to creating delicious food. Michelin two-star chef Daniel Patterson and celebrated natural perfumer Mandy Aftel are experts at orchestrating ingredients. Yet even in a world awash in cooking shows and food blogs, they noticed, home cooks get little guidance in the art of flavor. In this trailblazing guide, they share the secrets to making the most of your ingredients via an indispensable set of tools and principles: • The Four Rules for creating flavor • A Flavor Compass that points the way to transformative combinations • The flavor-heightening effects of cooking methods • "Locking," "burying," and other aspects of cooking alchemy • The Seven Dials that let you fine-tune a dish With more than eighty recipes that demonstrate each concept and put it into practice, The Art of Flavor is food for the imagination that will help cooks at any level to become flavor virtuosos.
