HVAC: Handbook of Heating, Ventilation and Air Conditioning

Industrial vs Commercial . To understand the difference between industrial and commercial, one should simply look at how these two terms are used in the English language. These two words are used with different senses. For example, there is industrial property as well as commercial property.

Difference Between Industrial and Commercial | Compare the ...

Industrial district (ID) is a place where workers and firms, specialised in a main industry and auxiliary industries, live and work. At the end of the 1990s the industrial districts in developed or developing countries had gained a recognised attention in international debates on industrialisation and policies of regional development.
