Otherwise, I do not have the time to solve the worlds problems, and the 20-30 emails a day asking for help prompt me to write this message.

IBANEZ RULES!! tech - setup

To set up a bass guitar, start by using the tuning pegs to loosen the old strings and pulling them out through the bridge or the body. Then, pull new strings that are the same thickness as the old strings through the bridge, and wrap them around the nuts while turning the tuner knobs to tighten them.

Ibanez guitars

Step 1: Measure the Neck Relief. We start with checking the "relief" or amount of bend in the neck. I often see people sighting down the neck from all angles and making some very ballpark assessments about neck relief. But the precise and accurate way to measure relief is to use the strings as a straightedge.
