European Union Intellectual Property Office

Trade and intellectual property in a nutshell. IPRs support creativity and innovation. The EU needs to protect these intangible assets for growth and competitiveness. Enforcing these rights within the EU and abroad affects EU growth and jobs. When European ideas, brands and products are pirated and counterfeited, EU jobs are affected.

Intellectual property and the transition period - GOV.UK

In a world where EU companies compete more on innovation, creativity and quality than on price, intellectual property is a powerful tool for EU enterprises to become more competitive. The Commission has designed a legal framework and intellectual property system that offer incentives for EU companies to invest in the provision of goods and services with high standards of quality, innovation, design and creativity.
