Negli ultimi cento anni abbiamo vissuto in una specie di età d ’ oro dell ’ acqua. Ma oggi stiamo entrando in un ’ era di scarsità, e non solo in luoghi tradizionalmente aridi. L ’ acqua sarà la storia del secolo, di questo nuovo secolo. Come ce la procuriamo, come la distribuiamo, come la usiamo, come combattiamo per essa? Ne rimarremo senza? Nel solco della grande tradizione del giornalismo d ’ inchiesta, il libro è un viaggio documentato, appassionante e scomodo nelle realtà, nelle mistificazioni e nelle possibilità di un futuro sostenibile.

The Arthurian Archives series of texts and editions in translation, edited by Norris J. Lacy, makes a start on Italian Arthurian material, with a 14c Tristan text.

In *The Wings of the Doves*, Elena Lombardi undertakes a detailed reading of Dante's *Inferno* V - the canto of Francesca da Rimini and her doomed love for her brother-in-law, Paolo

Malatesta, a richly layered episode within the Divine Comedy, which continues to challenge readers today, blurring the distinction between poetry and doctrine, pity and condemnation, and literature and reality. Lombardi plays on the complex nature of the canto in order to shed light on a larger and much-debated theme in medieval culture - the relation between spiritual and erotic forms of love and desire. Eschatology and law, pilgrimage and beauty, the role of affective practices in the religious and social spheres, intertextuality and the medieval culture of reading are just some of the themes that come together to unravel this tale of adultery and its bordering with the soul's search for God. The Wings of the Doves examines the flexibility of the medieval notion of desire to unearth the hidden meanings of this complex story of lust and love and the radical nature of medieval love poetry.

The essential marine data resource for yachts sailing the Mediterranean, the Imray Mediterranean Almanac is published biennially with updates available in a downloadable supplement at the end of the first year. It includes: Data, waypoints and contacts for all major harbours and marinas throughout the Mediterranean Sea plus Atlantic Islands. Weather sources for radio, internet and apps Information on lights and buoys Maritime regulations, marine reserves and traffic schemes Coast radio stations and frequencies GMDSS safety and distress communications Harbour plans throughout, with the familiar Imray cartography which adds clarity to their use. There are the usual detailed revisions throughout this edition, plus many new harbour plans.

This is a comprehensive companion to the long coastline which ranges from Spain and the edge of the Pyrenees to the Alpes Maritimes and Italy. It covers the flat country of Languedoc-Roussillon, the coast of the Golfe du Lion, the Rhone delta and the Camargue, the industrial Golfe de Fos, the Cote d Azur and the French Riviera and Monaco. The island of Corsica and the waterways that run behind the coast linking the Canal du Midi and the etangs to the Rhone are covered in separate chapters. The authors spent the summer and autumn of 2016 cruising in Corsica and then across to the Golfe du Fos where they left Skylax for the winter. During their travels they visited a large number of harbours and anchorages, collecting the latest information and taking new photographs. There are new aerial photos for many places and in particular for ports and harbours in Languedoc - Roussillon. This major 2017 edition contains substantial change to the content.
