Culture in Practice collects the academic and political writings from the 1960s through the 1990s of anthropologist Marshall Sahlins. More than a compilation, Culture in Practice unfolds as an intellectual autobiography. The book opens with Sahlins's early general studies of culture, economy, and human nature. It then moves to his reportage and reflections on the war in Vietnam and the antiwar movement, the event that most strongly affected his thinking about cultural specificity. Finally, it offers his more historical and globally aware works on indigenous peoples, especially those of the Pacific islands. Sahlins exposes the cultural specificity of the West, developing a critical account of the distinctive ways that we act in and understand the world. The book includes a play/review of Robert Ardrey's sociobiology, essays on "native" consumption patterns of food and clothes in America and the West, explorations of how two thousand years of Western cosmology affect our understanding of others, and ethnohistorical accounts of how cultural orders of Europeans and Pacific islanders structured the historical experiences of both. Throughout, Sahlins offers his own way of thinking about the anthropological project. To transcend critically our native categories in order to understand how other peoples have historically constructed their modes of existence--even now, in the era of globalization--is the great challenge of contemporary anthropology.

The four stories that make up the Mabinogi, along with three additional tales from the same tradition, form this collection and compose the core of the ancient Welsh mythological cycle. Included are only those stories that have remained unadulterated by the influence of the French Arthurian

The Mabinogi remains one of the great classics of European literature. Its Four Branches are tales of heroism and heartbreak, of love and disloyalty, that for all their magic and mystery, remain rooted in the emotional realities and moral complexities of everyday life. They are also rooted in the very soil of Wales, in a landscape relatively unchanged since these tales were first told in the early Middle Ages. This new and faithful English translation of The Mabinogi features photographs of the locations and landscapes evoked by and specifically named in the text, reminding us of the timelessness and beauty of the stories and the land they inhabit.

Vols. for 1921-1969 include annual bibliography, called 1921-1955, American bibliography; 1956-1963, Annual bibliography; 1964-1968, MLA international bibliography.

visitor alike.

"Tales of giants and heroes, of beautiful maidens, of the Emperor of Rome and the Emperor Arthur, of legendary history and historical legend, all told with the skill of long-trained storytellers and sensitive touch of polished writers. Such are the four tales translated here: How Culhwch got Olwen, perhaps the oldest but certainly, by far, the most exuberant of Arthurian tales, the finely crafted Dream of Maxen Wledig, Emperor of Rome, who fell in love in his sleep, the folkloric triad of The Story of Lludd and Llefelys, with its link to the legends of Merlin, and the exceedingly colourful Dream of Rhonabwy." This is how John K. Bollard introduces his new translation of those four native Welsh tales found in the same two medieval manuscripts as the great classic *The Mabinogi*. The text is beautifully illustrated by Anthony Griffiths's photographs of the locations and landscapes evoked by and specifically named in the text, reminding us of the timelessness and beauty of the stories and land they inhabit.
