Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from Walking Through Clear

Water in a Pool Painted Black and other publications. Also the best of Cookie's art columns from Details magazine, and the funniest of her advice columns from the East Village Eye, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before Bright Lights, Big City, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

Diesel engine is acknowledged for its superior efficiency and possesses a wide field of applications. It is also known as CI engine. Diesel engines also however, are the prime source of emissions such as NOX and particulate matter (PM). In order to reduce the emissions to an absolute minimum, this book explain as to how these toxins can be regulated. It is no hidden secret that the world is witnessing an oil crisis. But with other alternative sources such as biogas, natural gas and coke based substances; diesel is not the only way forward. The unique characteristics and properties such as combustion and emission of the aforementioned alternatives are explained extensively in this book. The book also goes on to explain how one can look for early signs of wear and tear and malfunctioning components of a diesel engine and its parts.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Fifty-six items, plus documentary 'supplements', can be considered a biographical as well as theoretical working edition of the origins and development of Korzybski's revolutionary system called "general semantics".

Thirty-one years ago in Anchorage, Alaska, Victoria Pilz Bannister Muravieff was convicted of murdering her seventeen-year-old son William. The jury returned a quick verdict of guilty, believing the prosecutor's claims that she had set fire to her own home with both her sons inside; William died and the other, Oliver, narrowly escaped. Victoria was sentenced to life in prison without parole, and though she pled not guilty at the trial, she never again denied her guilt. Now her daughter, Charlotte Muravieff, has hired Kate Shugak to clear her mother's name. Her daughter has always believed in her innocence, and now that Victoria has been diagnosed with terminal cancer, Charlotte wants her free. Kate is the only p.i. Charlotte can find who's willing to take such a long-shot case. Kate, on the other hand, is only willing because she's suddenly a single parent to a teenager, a teenager she hopes will decide to go to college. Besides, it can't be bad to do a favor for the Bannister family, one of the wealthiest and most prominent families in Alaska's short history. As Kate begins an investigation, Victoria protests, refusing to cooperate. But soon it seems she isn't the only one who wants to leave the past in the past. In this spell-binding novel, A Taint in the Blood, Kate's confrontation with thirty years of secrets and regret-and murder-in one of Alaska's most powerful families shows award-winning crime

writer Dana Stabenow at the top of her game.

At twenty-one years old, Oz Sullivan is unable to understand his fascination with and attraction to a much younger Adrienne Deschanel. Adrienne is spirited, passionate, and impulsive... all of the things Oz is not. Oz is drawn to her in a way that is inexplicable to him, and deeply concerning to those who know him. Amidst her father's threats, Adrienne makes secret plans to run away with Oz. Before they can act on them, Adrienne and her family are involved in a tragic accident that takes the lives of the entire family. Adrienne's body, however, is not found in the wreckage. Oz is devastated and unable to move on when an extensive investigation fails to solve the mystery of Adrienne's vanishing. Three years later Oz has made a life for himself as an attorney at his family's law firm. However, the predictability and peace of his quiet life is shattered when Adrienne is discovered, alive and well...but with no memory of anything before the accident. Oz is conflicted: grateful that she is alive but still damaged from her disappearance and hesitant to get involved and re-open a wound that never fully closed. Yet, Oz finds himself unable to resist helping when Adrienne's desperate attempt to flee the confusing and dark influences in her life instinctively finds her on Oz's doorstep. Unable to turn her away, but equally unable to get too involved, Oz keeps from her the truth of who he was and what they meant to each other before she disappeared. Against his better judgment he finds himself enmeshed in the mystery of what happened to her when she was sixteen. The more he learns, the less he understands, and as the story unfolds and Adrienne's memory slowly returns, everything they thought they both knew gets called into question. *St. Charles at Dusk* is the first novel in the *House of Crimson and Clover* series.

These hilarious essays on life inside and outside a Zen monastery make up the spiritual memoir of Shozan Jack Haubner, a Zen monk who didn't really start out to be one. Raised in a conservative Catholic family, Shozan went on to study philosophy (becoming de-Catholicized in the process) and to pursue a career as a screenwriter and stand-up comic in the clubs of L.A. How he went from life in the fast lane to life on the stationary meditation cushion is the subject of this laugh-out-loud funny account of his experiences. Whether he's dealing with the pranks of a juvenile delinquent assistant in the monastery kitchen or defending himself against claims that he appeared in a porno movie under the name "Daniel Reed" (he didn't, really) or being surprised in the midst of it all by the compassion he experiences in the presence of his teacher, Haubner's voice is one you'll be compelled to listen to. Not only because it's highly entertaining, but because of its remarkable insight into the human condition.

Citing reform efforts within the intelligence community since the 2004 publication of the 9/11 Commission Report, the author of *Preventing Surprise Attacks* argues that its new emerging structure has been heavily influenced by intelligence failures related to Iraq's alleged weapons program and is inappropriately centralized.

Falling for the Marine (A McCade Brothers Novel) by Samanthe Beck: Pretending to be in love has never felt so sexy. USMC helicopter pilot Michael McCade has two goals: Get his damn back into alignment and keep his nose clean until his ultra-conservative commanding officer clears him to fly again. The doctor-recommended massage therapy seems like a necessary evil if he's to return to the cockpit, but when his too-hot-to-handle neighbor turns out to be his masseuse, he strays from the straight and narrow in a major way. Former military brat Chloe Kincaid is looking for an ego-boosting, no strings attached hook up. But when her positively panty-melting neighbor (aka Major Hottie) shows up on her massage table, their off-the-charts chemistry overrides her no-military-men policy until they're caught. Now they have to fake an engagement to avoid the fallout, but can a girl who runs from attachments pretend to be in love with a straight-arrow soldier without falling hard?
