My Grandfather's Son A Memoir is the 2007 memoir of Clarence Thomas, an Associate Justice of the United States Supreme Court. The book spans all of Thomas's life to the present, beginning with his early childhood in the Deep South and his mother's decision to send him and his brother to be raised by her father and stepmother as she felt unable to care for them. He tells of his upbringing by his grandparents, his time in college and law school, and his career in government. Particular attention i

My Grandfather's Son - Wikipedia

My Grandfather ' s Son: A Memoir, by Justice Clarence Thomas. Originally published in 2007. 304 pages. Bootstrapping is an unpopular concept today, and My Grandfather ' s Son is certainly an engaging, bootstrapping book. However, it is worth reading because in reality, Clarence Thomas understands that his success is as much a testament to his grandfather ' s dedicated investment in him as it is to his own hard work and intellect.

Provocative, inspiring, and unflinchingly honest, My Grandfather's Son is the story of one of America's most remarkable and controversial leaders, Supreme Court Justice Clarence Thomas, told in his own words. Thomas speaks out, revealing the pieces of his life he holds dear, detailing the suffering and injustices he has overcome, including the acrimonious and polarizing Senate hearing involving a former aide, Anita Hill, and the depression and despair it created in his own life and the lives of those closest to him. In this candid and deeply moving memoir, a quintessential American tale of hardship and grit, Clarence Thomas recounts his astonishing journey for the first time.

Provocative, inspiring, and unflinchingly honest, My Grandfather's Son is the story of one of America's most remarkable and controversial leaders, Supreme Court justice Clarence Thomas, told in his own words. Thomas was born in rural Georgia on June 23, 1948, into a life marked by poverty and hunger. His parents divorced when Thomas was still a baby, and his father moved north to Philadelphia, leaving his young mother to raise him and his brother and sister on the ten dollars a week she earned as a maid. At age seven, Thomas and his six-year-old brother were sent to live with his mother's father, Myers Anderson, and her stepmother in their Savannah home. It was a move that would forever change Thomas's life. His grandfather, whom he called "Daddy," was a black man with a strict work ethic, trying to raise a family in the years of Jim Crow. Thomas witnessed his grandparents' steadfastness despite injustices, their hopefulness despite bigotry, and their deep love for their country. His own quiet ambition would propel him to Holy Cross and Yale Law School, and eventually—despite a bitter, highly contested public confirmation—to the highest court in the land. In this candid and deeply moving memoir, a quintessential American tale of hardship and grit, Clarence Thomas recounts his astonishing journey for the first time, and pays homage to the man who made it possible. Intimately and eloquently, Thomas speaks out, revealing the pieces of his life he holds dear, detailing the suffering and injustices he has overcome, including the acrimonious and polarizing Senate hearing involving a former aide, Anita Hill, and the depression and despair it created in his own life and the lives of those closest to him. My Grandfather's Son is the story of a determined man whose faith, courage, and perseverance inspired him to rise up against all odds and achieve his dreams.

A controversial Supreme Court justice recounts his life story, from his impoverished childhood in Jim Crow-era Georgia and struggles to acquire an education to his publicly contested confirmation to the nation's highest court and admiration of his family. (Biography & Autobiography)

Now a New York Times Best Seller and a National Book Award finalist, Charged with racial, sexual, and political overtones, the confirmation of Clarence Thomas as a Supreme Court justice was one of the most divisive spectacles the country has ever seen. Anita Hill ' s accusation of sexual harassment by Thomas, and the attacks on her that were part of his high-placed supporters ' rebuttal, both shocked the nation and split it into two camps. One believed Hill was lying, the other believed that the man who ultimately took his place on the Supreme Court had committed perjury. In this brilliant, often shocking book, Jane Mayer and Jill Abramson, two of the nation ' s top investigative journalists examine all aspects of this controversial case. They interview witnesses that the Judiciary Committee chose not to call, and present documents never before made public. They detail the personal and professional pasts of both Clarence Thomas and Anita Hill and lay bare a campaign of lobbying, public relations, and character assassination fueled by conservative power at its most desperate. A gripping high-stakes drama, Strange Justice is not only a definitive account of the Clarence Thomas nomination hearings, but is also a classic casebook of how the Washington game is played by those for whom winning is everything.

" Equal parts memoir, whodunit, and manual for living ... a beautifully written, honest look at the forces of blood and bone that make us who we are, and how we make ourselves. " --Neil Gaiman In his unique and engaging voice, the acclaimed actor of stage and screen shares the emotional story of his complicated relationship with his father and the deeply buried family secrets that shaped his life and career. A beloved star of stage, television, and film— " one of the most fun people in show business " (Time magazine)—Alan Cumming is a successful artist whose diversity and fearlessness is unparalleled. His success masks a painful childhood growing up under the heavy rule of an emotionally and physically abusive father—a relationship that tormented him long into adulthood. When television producers in the UK approached him to appear on a popular celebrity genealogy show in 2010, Alan enthusiastically agreed. He hoped the show would solve a family mystery involving his maternal grandfather, a celebrated WWII hero who disappeared in the Far East. But as the truth of his family ancestors revealed itself, Alan learned far more than he bargained for about himself, his past, and his own father. With ribald humor, wit, and incredible insight, Alan seamlessly moves back and forth in time, integrating stories from his childhood in Scotland and his experiences today as a film, television, and theater star. At times suspenseful, deeply moving, and wickedly funny, Not My Father ' s Son will make readers laugh even as it breaks their hearts.

Drawing on her grandfather's intimate correspondence with Picasso, Matisse, Braque and others, the author takes readers on a personal journey through the life of Paul Rosenberg, a legendary Parisian art dealer who was forced to flee Vichy France, leaving several famous artworks behind to be captured by the Nazis.

The Enigmas of Clarence Thomas is a groundbreaking revisionist take on the Supreme Court justice everyone knows about but no one knows. Most people can tell you two things about Clarence Thomas: Anita Hill accused him of sexual harassment, and he almost never speaks from the bench. Here are some things they don ' t know: Thomas is a black nationalist. In college he memorized the speeches of Malcolm X. He believes white people are incurably racist. In the first examination of its kind, Corey Robin – one of the foremost analysts of the right – delves deeply into both Thomas ' s biography and his jurisprudence, masterfully reading his Supreme Court opinions against the backdrop of his autobiographical and political writings and speeches. The hidden source of Thomas ' s conservative views, Robin shows, is a profound skepticism that racism can be overcome. Thomas is convinced that any government action on behalf of African-Americans will be tainted by racism; the most African-Americans can hope for is that white people will get out of their way. There ' s a reason, Robin concludes, why liberals often complain that Thomas doesn ' t speak but seldom pay attention when he does. Were they to listen, they ' d hear a racial pessimism that often sounds similar to their own. Cutting across the ideological spectrum, this unacknowledged consensus about the impossibility of progress is key to understanding today ' s political stalemate.

When Clarence Thomas joined the Supreme Court in 1991, he found with dismay that it was interpreting a very different Constitution from the one the framers had written—the one that had established a federal government manned by the people ' s own elected representatives, charged with protecting citizens ' inborn rights while leaving them free to work out their individual happiness themselves, in their families, communities, and states. He found that his predecessors on the Court were complicit in the first step of this transformation, when in the 1870s they defanged the Civil War amendments intended to give full citizenship to his fellow black Americans. In the next generation, Woodrow Wilson, dismissing the framers and their work as obsolete, set out to replace laws made by the people ' s representatives with rules made by highly educated, modern, supposedly nonpartisan " experts, " an idea Franklin Roosevelt superized in the New Deal agencies that he acknowledged had no constitutional warrant. Then, under Chief Justice Earl Warren in the 1950s and 1960s, the Nine set about realizing Wilson ' s dream of a Supreme Court sitting as a permanent constitutional convention, conjuring up laws out of smoke and mirrors and justifying them as expressions of the spirit of the age. But Thomas, who joined the Court after eight years running one of the myriad administrative agencies that the Great Society had piled on top of FDR ' s batch, had deep misgivings about the new governmental order. He shared the framers ' vision of free, self-governing citizens forging their own fate. And from his own experience growing up in segregated Savannah, flirting with and rejecting black radicalism at college, and running an agency that supposedly advanced equality, he doubted that unlected experts and justices really did understand the moral arc of the universe better than the people themselves, or that the rules and rulings they issued made lives better rather than worse. So in the hundreds of opinions he has written in more than a quarter century on the Court—the most important of them explained in these pages in clear, non-lawyerly language—he has questioned the constitutional underpinnings of the new order and tried to restore the limited, self-governing original one, as more legitimate, more just, and more free than the one that grew up in its stead. The Court now seems set to move down the trail he blazed. A free, self-governing nation needs independent-minded, self-reliant citizens, and Thomas ' s biography, vividly recounted here, produced just the kind of character that the founders assumed would always mark Americans. America ' s future depends on the power of its culture and institutions to form ever more citizens of this stamp.

In this "urgent and enthralling reckoning with family and history" (Andrew Solomon), an American writer returns to Russia to face a past that still haunts him. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES Alex Halberstadt's quest takes him across the troubled, enigmatic land of his birth, where decades of Soviet totalitarianism shaped and fractured three generations of his family. In Ukraine, he tracks down his paternal grandfather—most likely the last living bodyguard of Joseph Stalin. He revisits Lithuania, his Jewish mother's home, to examine the legacy of the Holocaust and the pernicious anti-Semitism that remains largely unaccounted for. And he returns to his birthplace, Moscow, where his grandmother designed homespun couture for Soviet ministers' wives, his mother consoled dissidents at a psychiatric hospital, and his father made a dangerous living by selling black-market American records. Halberstadt also explores his own story: that of an immigrant growing up in New York, another in a line of sons separated from their fathers by the tides of politics and history. Young Heroes of the Soviet Union is a moving investigation into the fragile boundary between history and biography. As Halberstadt revisits the sites of his family's formative traumas, he uncovers a multigenerational transmission of fear, suffering, and rage. And he comes to realize something more: Nations, like people, possess formative traumas that penetrate into the most private recesses of their citizens' lives.

In his twenty terms as an associate justice of the Supreme Court of the United States, Clarence Thomas has written nearly 450 opinions. Although they are readily available to the American people, much of the public continues to base its view of Thomas merely on the reporting by the media. This analysis of Thomas ' s most important majority, concurring, and dissenting opinions offers laypersons and legal professionals alike the opportunity to understand in his own words Thomas ' s approach to constitutional decision-making and his understanding of the most important provisions of the Constitution. Thomas ' s opinions, this work shows, reveal his consistent adherence to the core principles of federalism, separation of powers, and restrained judicial review, and to the regard for individual rights and limited government embodied by the Founders in the Constitution.
