(Book). Published to coincide with the 30th anniversary of the Roland Corporation, this is the inspiring and heartfelt memoir of Ikutaro Kakehashi, a pioneering figure in electronic music instruments and the company's visionary founder. From war-torn Japan to his first watch repair business to the dawn of and subsequent enormous leaps of electronic musical instruments, Kakehashi's story is sometimes wry, sometimes touching, always wise. Through it all, Kakehashi has believed in music above else: his first priority has always been an unwavering passion for expanding the potential for artistic expression. Everyone from music aficionados to those looking for time-tested business savvy will enjoy his unique story. The book features fantastic photos throughout, including an 8-page full-color section. Ikutaro Kakehashi founded the Roland Corporation in 1972. He lives in Hosoe-cho, Hamamatsu City, Japan. Robert Olsen worked for 25 years in the international music trade before switching careers to become a college instructor and free-lance author. He lives in Northbrook, IL.

The previously untold story of the Zenith Trans-Oceanic, the world's most romantic and expensive series of portable radios, now in a newly revised & expanded edition. Long a companion of kings, presidents, transoceanic yachtsmen and world explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.

(Book). Advancements in technology, such as tablets and smartphones, have changed the way people work. As a result, the chasm in areas such as information access, opinions, and even ethics has widened between people who are keeping up with the continuing changes and those who have been left behind. In *An Age Without Samples*, Ikutaro Kakehashi argues that what we need to do now is resurrect the "venture spirit" we saw from the late '60s through the '80s. With the explosive change brought about by IT, social networking, and other developments, there is a very rare opportunity today for venture businesses. Based on a solid footing in his area of specialty as a pioneer in music and technology, Kakehashi uses the digital age as the backdrop of the times we live in. In this book, he offers tips on how one might navigate this "age without samples," drawing from his own personal experience, successes, and most important, groundbreaking product development.

*Mountains of the Heart* explores Japan's landscape through the eyes of a renowned artist and provides new perspectives on a rare painting collection. It is an invaluable study of a landmark masterpiece that profoundly influenced the development of ehon, or art books, which recorded Japanese life, culture, and geography for hundreds of years. A great master of the Japanese art-book tradition, Bosai eloquently discusses man's interaction with the environment. His work depicts small figures lost in the mist and forests of immense foothills, seeking nourishment for body and spirit. His work instills in the viewer a sense of nature's immense power and our comparative frailty, while still conveying the peaceful mood of the rural locales that he so lovingly immortalizes. Each image, in its serenity, completely captivates the viewer, and draws us into Bosai's world. One secret of the appeal of ehon is that their artists see with such imagination and clarity, draw with such verve, and embrace any subject, however humble or imperfect, explains Roger S. Keyes, curator of a New York ehon exhibition, who declares that these books seize and hold a reader's attention, that they provide revelation and inspiration and turn willing readers into artists. They empower people. This certainly holds true in *Mountains of the Heart*, With comprehensive introduction and commentary by Stephen Addiss, this book will inspire anyone interested in the rich history of Japanese art. 22 color spreads, 22 black and white illustrations.
