Problems to prepare ... Solutions

Solution: Hunter A
Hunter B Variance of
hunter A equals s^2
(A) = 0,4 , variance of
hunter B equals s^2
(B) = 3,6. Stands s^2
(A) < s^2 (B). Hunter A
won the competition.

Statistics Probability Examples And Solutions

Let ' s see the first of
our descriptive
statistics examples.

Example 1:

Descriptive statistics
about a college
involve the average
math test score for
incoming students. It
says nothing about
why the data is so or

Download Free Statistics

what trends we can see and follow.

Descriptive statistics help you to simplify large amounts of data in a meaningful way. It reduces lots of data into a summary.

Example 2:

Descriptive Statistics
Examples, Types and
Definition

Solution: Using the formula: $\text{Sum} = \text{Mean} \times \text{Number of}$

numbers . Sum of original 6 numbers = $20 \times 6 = 120$. Sum of remaining 5 numbers = $15 \times 5 = 75$.

Number removed = sum of original 6 numbers – sum of remaining 5 numbers
Number removed = $120 - 75 = 45$.

Download Free Statistics

Alternative Method:

Let x be the removed number . The

removed number is

45 . Example:

Example 1: Let us consider an example:
What is the probability of getting a 5 when a die is rolled and probability of not getting 5?

Solution: Total Number of possible outcomes while rolling a die is 6. The number of ways, that a 5 occurs while rolling a die is 1.
