A 2008 cover of The New Yorker featured a much-discussed Black Power parody of Michelle and Barack Obama. The image put a spotlight on how easy it is to flatten the Black Power movement as we imagine new types of blackness. Margo Natalie Crawford argues that we have misread the Black Arts Movement's call for blackness. We have failed to see the movement's anticipation of the "new black" and "post-black." Black Post-Blackness compares the black avant-garde of the 1960s and 1970s Black Arts Movement with the most innovative spins of twenty-first century black aesthetics. Crawford zooms in on the 1970s second wave of the Black Arts Movement and shows the connections between this final wave of the Black Arts movement and the early years of twenty-first century black aesthetics. She uncovers the circle of black post-blackness that pivots on the power of anticipation, abstraction, mixed media, the global South, satire, public interiority, and the fantastic.

This book examines a range of visual expressions of Black Power across American art and popular culture from 1965 through 1972. It begins with case studies of artist groups, including Spiral, OBAC and AfriCOBRA, who began questioning Western aesthetic traditions and created work that honored leaders, affirmed African American culture, and embraced an African lineage. Also showcased is an Oakland Museum exhibition of 1968 called "New Perspectives in Black Art," as a way to consider if Black Panther Party activities in the neighborhood might have impacted local artists ' work. The concluding chapters concentrate on the relationship between selected Black Panther Party members and visual culture, focusing on how they were covered by the mainstream press, and how they self-represented to promote Party doctrine and agendas.

If the history of black magic and the occult reveals anything, it ' s that the drive to marshal the unseen powers of the dark, and bend them to mortal will, is as old as mankind itself. Men and women have believed, in virtually every age and in every land, that there is another world—a world of spirits and souls, angels and demons, gods and monsters, a world that might hold the answers to all the great mysteries: What is life all about? Does man decide his own fate? Is there a Heaven? And, perhaps more important, is there a Hell? As they sought the answers to these questions, the occult pioneers often stumbled upon real and verifiable truths—the astrologers mapped the heavens and thereby paved the way for the astronomers who followed. The alchemists, in their futile quest to make gold from lead, discovered everything from phosphorous to the manufacturing of steel. Even the seers, who read palms and interpreted dreams, contributed to the vast catalog of human thought and deed anticipating such later practices as psychology and hypnosis. Here, in one spellbinding volume, is a history of the major occult arts—necromancy, sorcery, astrology, alchemy, and prophecy—as they have been practiced from ancient Babylon to the present day. Raising Hell weaves history with mythology, quotes, anecdotes, and illustrations to provide a vivid chronicle of the evolution of the occult arts. From the origins of the pentagram and the sacred circle, to the incantations of necromancers, to the prophecies of Nostradamus, this definitive source offers a compelling look at the black arts . . . and those who risked their lives—and some say their souls—to explore them.
