How to Use a Decision Matrix to Make Tough Choices ...

A decision making process grid is a matrix for comparing multiple options when there are also several criteria to consider. It has many names, including Pugh matrix, solution matrix, decision making matrix, decision grid, problem selection grid, grid analysis, decision matrix analysis, and even the acronym MAUT, which stands for Multi-Attribute Utility Theory!

How to use a decision making process grid

The Decision Making Grid (DMG) is a tool to help students make wise decisions in a range of contexts. The tool is used to help students make financial decisions – ‘the best choices at the least cost’. Setting up the DMG: • Students record the products they are comparing across the top of the DMG.

Let's learn Decision together Making Grid

Both decision tree and grid analysis are used in projects for decision making. A comparison of decision tree vs. grid analysis will indicate the best process that is considered suitable for the project. There are several occasions in project management when decision making is involved, like during preparation of project plans, scope definition, finalization of objectives, etc.
