Respiratory Care Exam Review: Review for the Entry Level and Advanced Exams, 3rd Edition, readies students with review materials for both the CRT and RRT exams! The material is presented in an outline format for efficient studying, with special boxes included in

the chapter to highlight important information that is often included in the exam. New content has been added to the 3rd edition, including the latest updates to the NBRC content outlines implemented in 2009 and 2010. Be fully prepared with this comprehensive text! Respiratory Therapy exam review designed to provide students with a complete, hands-on review for both the NBRC Certified Respiratory Therapist (CRT) and the Registered Respiratory Therapist (RRT) credentialing exams. The material is presented in a detailed outline format, and each chapter includes a pre-test and post-chapter questions. Answers and rationales for both pre- and post-testing are located in the back of the book. Book includes two practice exams. One practice exam for each exam (CRT & RRT) is located in the back of the book. Answer keys with rationales for correct and incorrect answers are available on the Evolve Web site. The NBRC complexity levels of each question are indicated in the answer key to help the student better prepare for the actual exam. Every chapter has been thoroughly revised to incorporate the newest (2009) NBRC Examination content outlines that were implemented in 2009 (CRT) and 2010 (RRT). Unique! Exam Notes highlight special notes or instructions specific to either the entry level (CRT) or advanced exam (RRT) to help students use their study time more effectively. Other key information relevant to the respiratory therapist is featured in specially shaded boxes. Completely updated to reflect the newest NBRC Examination content outlines, with new information on: stress testing, oxygen titration with exercise, arterial line insertion, influenza vaccines and ventilator-associated pneumonia protocols. Additional practice test questions with rationales added to both entry level and advanced practice exams provide rationales and detailed explanation for every question on the exam.

This book constitutes the revised selected papers from the First International Conference on Computing, Analytics and Networks, ICAN 2017, held in Rajpura, India, in October 2017. The 20 revised full papers presented in this volume were carefully reviewed and selected from 56 submissions. They are organized in topical sections on Mobile Cloud Computing; Big Data Analytics; Secure Networks. Five papers in this book are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com. For further details, please see the copyright page.

These proceedings gather cutting-edge papers exploring the principles, techniques, and applications of Microservices in Big Data Analytics. The ICETCE-2019 is the latest installment in a successful series of annual conferences that began in 2011. Every year since, it has significantly contributed to the research community in the form of numerous high-quality research papers. This year, the conference 's focus was on the highly relevant area of Microservices in Big Data Analytics.

This book is intended to help explore the field of smart sustainable cities in its complexity, heterogeneity, and breadth, the many faces of a topical subject of major importance for the future that encompasses so much of modern urban life in an increasingly computerized and urbanized world. Indeed, sustainable urban development is currently at the center of debate in light of several ICT visions becoming achievable and deployable computing paradigms, and shaping the way cities will evolve in the future and thus tackle complex challenges. This book integrates computer science, data science, complexity science, sustainability science, system thinking, and urban planning and design. As such, it contains innovative computer-based and data-analytic research on smart sustainable cities as complex and dynamic systems. It provides applied theoretical contributions fostering a better understanding of such systems and the synergistic relationships between the underlying physical and informational landscapes. It offers contributions pertaining to the ongoing development of computer-based and data science technologies for the processing, analysis, management, modeling, and simulation of big and context data and the associated applicability to urban systems that will advance different aspects of sustainability. This book seeks to explicitly bring together the smart city and sustainable city endeavors, and to focus on big data analytics and context-aware computing specifically. In doing so, it amalgamates the design concepts and planning principles of sustainable urban forms with the novel applications of ICT of ubiquitous computing to primarily advance sustainability. Its strength lies in combining big data and context-aware technologies and their novel applications for the sheer purpose of harnessing and leveraging the disruptive and synergetic effects of ICT on forms of city planning that are required for future forms of sustainable development. This is because the effects of such technologies reinforce one another as to their efforts for transforming urban life in a sustainable way by integrating data-centric and context-aware solutions for enhancing urban systems and facilitating coordination among urban domains. This timely and comprehensive book is aimed at a wide audience across science, academia industry, and policymaking. It provides the necessary material to inform relevant research communities of the state-of-the-art research and the latest development in the area of smart sustainable urban development, as well as a valuable reference for planners, designers, strategists, and ICT experts who are working towards the development and implementation of smart sustainable cities based on big data analytics and context-aware computing.

Focussing specifically on city branding this is an invaluable text as city branding becomes increasingly important across the world and has a direct impact on public and private sector practice
