As such, Writing in Light by Joanne Bernardi is like a flashlight in the dark. An academic publication, though thoroughly accessible for layman readers, this meticulously researched and highly informative look at the infancy of Japanese cinema sheds a great degree of light on the otherwise silent history of these invisible movies.

Post-war pop . After World War I the advent of wireless broadcasting helped spread Silent Night even wider. During the early days of national public broadcasting in America, performances of the carol by the Austrian/American opera star Ernestine Schumann-Heink (1861-1936) became something of a Christmas tradition, and secured the carol's special place in the Christmas rituals of America.

Gaslighting is a form of psychological manipulation in which a person or a group covertly sows seeds of doubt in a targeted individual or group, making them question their own memory, perception, or judgment. It may evoke changes in them such as cognitive dissonance or low self-esteem, rendering the victim additionally dependent on the gaslighter for emotional support and validation.

The Korean alphabet, known as Hangul (Hangeul) in South Korea and Chosŏn'gŭl in North Korea, is a writing system for the Korean language created by King Sejong the Great in 1443. The letters for the five basic consonants reflect the shape of the speech organs used to pronounce them, and they are systematically modified to indicate phonetic features; similarly, the vowel letters are ...

A new look at an important era of Japanese cinema, featuring translations of key scripts.

Encompassing the thirty-five year span between the initial development of film technology in the mid-1890s and the adoption of synchronized sound in the late 1920s, the cinema's silent era is both one of the most important epochs of film history and one of the most misunderstood within the popular imagination. In this brief and readable account, these formative decades come vividly to life. Covering the full scope of the silent era—from the invention of motion pictures to the rise of the Hollywood studios—and touching on films and filmmakers from every corner of the globe, *Silent Film: A Very Short Introduction* offers a window into film's first years as a worldwide entertainment phenomenon. From groundbreaking early shorts to the masterpieces of the cinema's classical era, from street-corner nickelodeons to grand movie palaces, from slapstick to the avant-garde, the silent era's artistic abundance and global variety are here put on full display. In the story of silent film, we see not just the origins of a new culture industry but also a legacy of imagination and innovation that continues to profoundly influence the cinema even to this day. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Contributor Martin Padgett's essay: Native Americans, the Photobook and the Southwest: Ansel Adams' and Mary Austin's Taos Pueblo was awarded the 2010 Arthur Miller Essay Prize. This book offers a collection of essays on the interface between literature and photography, as exemplified in important North American texts.

From the author of *Stylish Academic Writing* comes an essential new guide for writers aspiring to become more productive and take greater pleasure in their craft. Helen Sword interviewed 100 academics worldwide about their writing background and practices and shows how they find or create the conditions to get their writing done.

Mary Ludlam, a young Puritan woman of the 17th Century, leaves Matlock, England and sails to the New World with her family. Here, under the strict Mosaic Law enforced by the Puritan government, women are subservient to men.Mary's uncle warns her to guard her tongue, lest she face the gallows, accused of being either a heretic or a witch. When Mary is seventeen she marries Thom Scudder who is delighted by Mary's wit and wisdom and is pleased to give her unusual freedom for the time.On her husband's deathbed, she promises to write the story of the struggles and tragedies she has faced, as well as the joy she has found in her husband and family. Thom says,'That is God's purpose for you, Mary, so others may gain courage by your example.' Not until 300 years later does she find a way to complete her task.

The world watched in horror in April 2007 when Virginia Tech student Seung-Hui Cho went on a killing rampage that resulted in the deaths of thirty-two students and faculty members before he ended his own life. Former Virginia Tech English department chair and distinguished professor Lucinda Roy saw the tragedy unfold on the TV screen in her home and had a terrible realization. Cho was the student she had struggled to get to know—the loner who found speech torturous. After he had been formally asked to leave a poetry class in which he had shared incendiary work that seemed directed at his classmates and teacher, Roy began the difficult task of working one-on-one with him in a poetry tutorial. During those months, a year and a half before the massacre, Roy came to realize that Cho was more than just a disgruntled young adult experimenting with poetic license; he was, in her opinion, seriously depressed and in urgent need of intervention. But when Roy approached campus counseling as well as others in the university about Cho, she was repeatedly told that they could not intervene unless a student sought counseling voluntarily. Eventually, Roy's efforts to persuade Cho to seek help worked. Unbelievably, on the three occasions he contacted the counseling center staff, he did not receive a comprehensive evaluation by them—a startling discovery Roy learned about after Cho's death. More revelations were to follow. After responding to questions from the media and handing over information to law enforcement as instructed by Virginia Tech, Roy was shunned by the administration. Papers documenting Cho's interactions with campus counseling were lost. The university was suddenly on the defensive. Was the university, in fact, partially responsible for the tragedy because of the bureaucratic red tape involved in obtaining assistance for students with mental illness, or was it just, like many colleges, woefully underfunded and therefore underequipped to respond to such cases? Who was Seung-Hui Cho? Was he fully protected under the constitutional right to freedom of speech, or did his writing and behavior present serious potential threats that should have resulted in immediate intervention? How can we balance students' individual freedom with the need to protect the community? These are the questions that have haunted Roy since that terrible day. No Right to Remain Silent is one teacher's cri de coeur—her dire warning that given the same situation today, two years later, the ending would be no less terrifying and no less tragic.

"The Silent Readers: Sixth Reader" by Albert Lindsay Rowland, Ethel Maltby Gehres, William Dodge Lewis. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten-or yet undiscovered gems-of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Silent Film and the Triumph of the American Myth connects the rise of film and the rise of America as a cultural center and twentieth-century world power. Silent film, Paula Cohen reveals, allowed America to sever its literary and linguistic ties to Europe and answer the call by nineteenth-century writers like Emerson, Thoreau and Whitman for an original form of expression compatible with American strengths and weaknesses. When film finally began to talk in 1927, the medium had already done its work. It had helped translate representation into a dynamic visual form and had "Americanized" the world. Cohen explores the way film emerged as an American medium through its synthesis of three basic elements: the body, the landscape, and the face. Nineteenth-century American culture had already charged these elements with meaning—the body through vaudeville and burlesque, landscape through landscape painting and moving panoramas, and the face through portrait photography. Integrating these popular forms, silent film also developed genres that showcased each of its basic elements: the body in comedy, the landscape in the western, and the face in melodrama. At the same time, it helped produce a new idea of character, embodied in the American movie star. Cohen's book offers a fascinating new perspective on American cultural history. It shows how nineteenth-century literature can be said to anticipate twentieth-century film—how Douglas Fairbanks was, in a sense, successor to Walt Whitman. And rather than condemning the culture of celebrity and consumption that early Hollywood helped inspire, the book highlights the creative and democratic features of the silent-film ethos. Just as notable, Cohen champions the concept of the "American myth" in the wake of recent attempts to discredit it. She maintains that American silent film helped consolidate and promote a myth of possibility and self-making that continues to dominate the public imagination and stands behind the best impulses of our contemporary world.

Have you ever tried to find the beginning or end of a tightly wound ball of yarn? I have. Writing this book has been a similar experience. My poetry was not written to be published but to help me survive physical and emotional pain. It helped me write my way out of darkness to the light at the end of the tunnel. Others may have had difficulty in finding that light. I hope sharing my journey will give hope to you on your own journey to light.
